M'ADOO SEEKS NEW MEANS OF REVENUE TOGET 5 BILLIONS wanted to entertain soldiers in and about Washington. A series of entertainment

the war took Secretary of the Treasury McAdoo completely by surprise, he is at a loss to know how to find new sources of revenue,

It has developed that Mr. McAdoo was not taken into the confidence of the War Department until a short time before the \$5,000,000,000 estimate

internal revenue bureau to work, figuring out amounts which could be raised from various sources, but is having great difficulty in finding reservoirs of wealth which con-veniently may be tapped to the tune of a billion dollars, the amount which Senator Simmons, chairman of the Senate Finance Committee, says must be raised by taxation to help make up the \$5,000,000.000 budget. up the \$5,000,000,000 budget.

up the \$5,000,000,000 budget.
With the proceeds of the \$2,000,000,000 loan, which had been paid in
up to July 1, diminished by nearly
half in the first three weeks of July
and with vast expenditures staring
the Treasury in the face, the situation would not be exactly a comfortable one were it not for the Secreable one were it not for the Secre tary's power to sell nearly \$2,000,000,000,000 in short term Treasury certificates of indebledness.

Study of the Treasury statement reveals that there is only a little more than \$300,000,000 in cash yet to come from the Liberty loan. On books it is seen that about \$600,-000,000 of subscriptions still is un-paid, but against this must be checked approximately \$300,006,000 in Treasury certificates still outstanding, and which in all probability will be paid in on Liberty loan subscrip-tions. This means that for half of the remaining resources available on account of the loan the Treasury will

account of the loan the freesury will receive only paper. The money it received for that paper last May has been spent or else lent to the allies. On July 24 the net balance in the general fund of the Tressury fell off more than \$80,000,000 and an authorimore than \$50,000,000 and an authori-sation of a new loan of \$75,000,000, made in favor of Russia July 23, is a further immediate liability against the net balance. Payments on ac-count of cantonments and other big army contracts are beginning to fall due, increasing the drain on the Treasury. There is less than half a Treasury. There is less than half a billion in the Treasury today.

The sharp change in the financial policy of the country indicated by the action of the Administration yes-terday in authorizing the Dominion of Canada to go into the open market in the United States and sell \$190,000,000 in securities to enable canada to get some ready cash is MOVING, PACKING, STORAGE regarded as a straw which shows the

Almost immediately after this coun try entered the war Great Britain sought to sell a \$200,000,000 batch of nadian Pacific railway securities in the United States through J. P. Mor-& Co. Hearing of the impending transaction, Secretary McAdoo called in the British ambassador and con-cluded a Government loan of \$200,-600,000 to irreat Britain in order to prevent disturbance of the American investment field by foreign insancing. Later, the Treasury was informed that the Republic of Cuba sought to sell part of a \$30,000,000 bond issue in the United States. The Government put a stop to this transaction, and was willing to make a loan to

Cuba rather than permit the open market financing. Cuba succeeded in placing her loan at home, and that difficulty was solved.

Sir Thomas White, finance minister of Canada, has been in almost daily conference with Secretary McAdoo for the last ten days on the subject of Dominion war finances. Those conferences resulted in Government sanction for a Canadian loan of \$100,000,000 here, in contradiction of the policy in contradiction of the policy. here, in contradiction of the policy which has dictated that foreign gov- BLACK PURSE-Small, containing \$10 bill which has detasted that foreign governments keep their hands out of the American people's purse. It is understood that the sole reason for the change is that American Government finances do not at this stage permit of any other procedure.

However, Administration officials

are sanguine that the straitened cir-cumstances of the moment sorn will be remedied, knowing the willingness of the country to quickly absoru an-
